Brave New World (75th Anniversary Edition) [Audiobook] Unabridged edition

Brave New World (75th Anniversary Edition) [Audiobook] Unabridged edition
Originally published in 1932, this outstanding work of literature is more crucial and relevant today than ever before. Cloning, feel-good drugs, anti-aging programs, and total social control through politics, programming, and media has Aldous Huxley accurately predicted our future? With a storyteller s genius, he weaves these ethical controversies in a compelling narrative that dawns in the year 632 AF (After Ford, the deity). When Lenina and Bernard visit a savage reservation, we experience how Utopia can destroy humanity. A powerful work of speculative fiction that has enthralled and terrified readers for generations, "Brave New World" is both a warning to be heeded and thought-provoking yet satisfying entertainment."
