Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science)

Dr. Clifford A. Shaffer

Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science)
Dr. Clifford A. Shaffer
With its focus on creating efficient data structures and algorithms, this comprehensive text helps readers understand how to select or design the tools that will best solve specific problems. It uses *Microsoft C++* as the programming language and is suitable for second-year data structure courses and computer science courses in algorithm analysis.
Techniques for representing data are presented within the context of assessing costs and benefits, promoting an understanding of the principles of algorithm analysis and the effects of a chosen physical medium. The text also explores tradeoff issues, familiarizes readers with the most commonly used data structures and their algorithms, and discusses matching appropriate data structures to applications. The author offers explicit coverage of design patterns encountered in the course of programming the book's basic data structures and algorithms. Numerous examples appear throughout the text.

From reader reviews:

Brian Grant:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a walk, shopping, or went to the Mall. How about open or even read a book allowed Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science)? Maybe it is to get best activity for you. You recognize beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with it has the opinion or you have different opinion?

Vickie Hintz:

Here thing why this kind of Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) are different and trusted to be yours. First of all reading a book is good but it depends in the content than it which is the content is as tasty as food or not. Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) giving you information deeper as different ways, you can find any reserve out there but there is no reserve that similar with Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science). It gives you thrill reading through journey, its open up your eyes about the thing that happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in area, café, or even in your way home by train. In case you are having difficulties in bringing the printed book maybe the form of Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) in e-book can be your alternative.

Josefina Smith:

That book can make you to feel relax. This specific book Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) was colorful and of course has pictures on the website. As we know that book Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science) has many kinds or style. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and believe that you are the character on there. Therefore not at all of book usually are make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book for you and try to like reading that.

Carol Ton:

A lot of reserve has printed but it differs. You can get it by online on social media. You can choose the best book for you, science, amusing, novel, or whatever by means of searching from it. It is named of book Data Structures and Algorithm Analysis in C++, Third Edition (Dover Books on Computer Science). You can add your knowledge by it. Without departing the printed book, it could add your knowledge and make anyone happier to read. It is most critical that, you must aware about book. It can bring you from one destination to other place.
