International Relations and Security in the Digital Age

International Relations and Security in the Digital Age

This book examines the impact of the information revolution on international and domestic security, attempting to remedy both the lack of theoretically informed analysis of information security and the US-centric tendency in the existing literature.

International Relations and Security in the Digital Age covers a range of topics, including: critical infrastructure protection, privacy issues, international cooperation, cyber terrorism, and security policy. It aims to analyze the impact of the information revolution on international and domestic security; examine what existing international relations theories can say about this challenge; and discuss how international relations theory can be developed to better meet this challenge.

The analysis suggests that Liberalism's focus on pluralism, interdependence and globalization, Constructivism's emphasis on language, symbols and images (including 'virtuality'), and some elements of Realist strategic studies (on the specific topic of information warfare) contribute to a better understanding of digital age security.

This book will be of interest to students of security studies, globalization, international relations, and politics and technology.

From reader reviews:

Eva Dawson:

International Relations and Security in the Digital Age can be one of your beginner books that are good idea. Most of us recommend that straight away because this book has good vocabulary that can increase your knowledge in language, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to get every word into satisfaction arrangement in writing International Relations and Security in the Digital Age but doesn't forget the main level, giving the reader the hottest and based confirm resource information that maybe you can be one among it. This great information could drawn you into completely new stage of crucial considering.

Leslie Jasso:

Would you one of the book lovers? If so, do you ever feeling doubt if you are in the book store? Try to pick one book that you find out the inside because don't assess book by its handle may doesn't work is difficult job because you are frightened that the inside maybe not because fantastic as in the outside appearance likes. Maybe you answer is usually International Relations and Security in the Digital Age why because the great cover that make you consider about the content will not disappoint anyone. The inside or content is fantastic as the outside as well as cover. Your reading sixth sense will directly make suggestions to pick up this book.

Helen Johnson:

Is it an individual who having spare time after that spend it whole day through watching television programs or just lying down on the bed? Do you need something new? This International Relations and Security in the Digital Age can be the reply, oh how comes? It's a book you know. You are therefore out of date, spending your time by reading in this brand new era is common not a nerd activity. So what these books have than the others?

Sidney Robertson:

As a student exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some reserve, they are complained. Just small students that has reading's heart and soul or real their passion. They just do what the professor want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that examining is not important, boring in addition to can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this International Relations and Security in the Digital Age can make you experience more interested to read.
