How To Get What You Want
Was written by Wallace D Wattles in 1907

Getting what you want is success; and success is an effect, coming from the application of a cause. Success is essentially the same in all cases; the difference is in the things the successful people want, but not in the success. Success is essentially the same, whether it results in the attainment of health, wealth, development or position; success is attainment, without regard to the things attained. And it is a law in nature that like causes always produce like effects.
