A Zombie Apocalypse may seem like a fantasy right now. But what happens when an outbreak hits? Will you be prepared?

The Zombie Apocalypse is a disaster few believe will truly ever occur despite how it has captured the popular imagination in film and popular culture. The Center for Disease Control and the Pentagon have developed real zombie apocalypse scenarios just in case. If these powerhouses of the American government take the apocalypse seriously so should you.

Just imagine, the world as you know it changes drastically. Your city is bent to the breaking point by a natural disaster so massive that there is nowhere to turn to for help except yourself. Your friends and family are now zombies and it is only a matter of time until you have to fend for yourself from the zombie attack.

All this and you still must find some way to survive until help comes. Who can you trust aside from yourself? The natural human race is slowly turning into Zombies and your choice becomes **fight, flight or get your brains eaten.**
