Stop Cybercrime from Ruining Your Life! Sixty Secrets to Keep You Safe Cynthia James
Cybercrime has exploded since 2006, and with cyber criminals earning over $100 billion a year, it shows no sign of slowing down. With our government just as susceptible to cyberthreats as we are, we must be the ones to save ourselves and protect the people we love. Luckily, this isn't nearly as difficult as it sounds!

Stop Cyber Crime from Ruining Your Life! Sixty Secrets to Keep You Safe uses a casual tone to demystify the subject while teaching readers about the very real dangers of cyber-thieves and predators. This easy-to-read, useful, non-technical book offers simple rules and tools that protect readers and their loved ones from losing everything to cybercriminals. An invaluable new resource by Cynthia James, the book makes protection as painless as possible while ensuring we learn the basics of cybercrime so we can dodge costly mistakes that can leave us vulnerable.

With this new guide, readers everywhere will have the knowledge, confidence, and tools to start protecting themselves immediately. Including priceless information from the methods cyber criminals use to the fact that 401ks aren't insured against loss if they are hacked, this is the ideal resource for the war on cybercrime. Filled with everything you need to know on what you fear most, this book will have you ready to fight back in no time.

Written by an expert in cyber-security, Stop Cyber Crime from Ruining Your Life! serves as an authority on the subject. At a time when the average person desperately needs information on how to protect themselves, James has created a unique resource that can help everyone. Whereas too many books on the topic are overly technical, too specialized, or simply outdated, this remarkable guide serves as an easy and practical way to get all the answers readers need. As interesting as it is trustworthy, this one-of-a-kind resource is a must-own for anyone looking to protect themselves or someone they love from the damaging effects of cybercrime.

James has over twenty-five years of professional experience in the high-tech industry with her last seven spent exclusively focused on cyber security. She possesses one of the most rigorous security certifications in the world, the CISSP (Certified Information Systems Security Professional), which requires knowledge of the best security practices within ten different areas, including physical and software development and encryption. In James' job with Kaspersky Lab, the largest privately held anti-cybercrime company in the world, James speaks, writes, and teaches extensively about cybercrime. She has written this book to address the growing gap between the complex realities of the cybercrime environment and the average person's need for simplified information and basic protection.
