Remote Sensing of Natural Resources (Remote Sensing Applications Series)

Remote Sensing of Natural Resources (Remote Sensing Applications Series)

Highlighting new technologies, **Remote Sensing of Natural Resources** explores advanced remote sensing systems and algorithms for image processing, enhancement, feature extraction, data fusion, image classification, image-based modeling, image-based sampling design, map accuracy assessment and quality control. It also discusses their applications for evaluation of natural resources, including sampling design, land use and land cover classification, natural landscape and ecosystem assessment, forestry, agriculture, biomass and carbon-cycle modeling, wetland classification and dynamics monitoring, and soils and minerals mapping.

The book combines review articles with case studies that demonstrate recent advances and developments of methods, techniques, and applications of remote sensing, with each chapter on a specific area of natural resources. Through a comprehensive examination of the wide range of applications of remote sensing technologies to natural resources, the book provides insight into advanced remote sensing systems, technologies, and algorithms for researchers, scientists, engineers, and decision makers.

From reader reviews:

Diana Rush:

Typically the book Remote Sensing of Natural Resources (Remote Sensing Applications Series) has a lot of knowledge on it. So when you make sure to read this book you can get a lot of advantage. The book was compiled by the very famous author. Tom makes some research prior to write this book. This book very easy to read you can get the point easily after reading this article book.

Donnie Matthews:

Reading a book to become new life style in this season; every people loves to examine a book. When you learn a book you can get a wide range of benefit. When you read ebooks, you can improve your knowledge, since book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this kind of us novel, comics, and soon. The Remote Sensing of Natural Resources (Remote Sensing Applications Series) will give you a new experience in examining a book.

Mary McClellan:

You are able to spend your free time to learn this book this guide. This Remote Sensing of Natural Resources (Remote Sensing Applications Series) is simple to develop you can read it in the playground, in the beach, train along with soon. If you did not possess much space to bring the particular printed book, you can buy the e-book. It is make you simpler to read it. You can save often the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

Sallie Farris:

As we know that book is essential thing to add our knowledge for everything. By a reserve we can know everything we really wish for. A book is a group of written, printed, illustrated as well as blank sheet. Every year was exactly added. This book Remote Sensing of Natural Resources (Remote Sensing Applications Series) was filled about science. Spend your time to add your knowledge about your scientific research competence. Some people has various feel when they reading any book. If you know how big benefit of a book, you can experience enjoy to read a e-book. In the modern era like at this point, many ways to get book which you wanted.
