Honor Harrington is arguably the most popular character in modern science fiction, but there are many other stories in the Honorverse besides those in which she has the central role. This fifth volume in the popular Worlds of Honor series explores some of those stories with the help of such top writers as best-selling author Jane Lindskjold, New York Times best-selling author Timothy Zahn, and more—including an all-new Honor Harrington adventure, set in her younger years, when a mob of space pirates made the mistake of tangling with Commander Harrington. That was a fatal mistake—for the pirates . . .

At the publisher's request, this title is sold without DRM (Digital Rights Management).

David Weber is the science fiction phenomenon of the decade. His popular Honor Harrington novels repeatedly make the *New York Times* best seller list and can’t come out fast enough for his devoted readers. He has also written the popular Safehold series for Tor, and a best-selling epic SF adventure series in collaboration with John Ringo, with four novels so far: *March Upcountry*, *March to the Sea*, *March to the Stars* and *We Few*. His *Wind Rider’s Oath*, another *New York Times* best seller, continues his popular Bahzell fantasy adventure series.
