Spirituality, Ethics and Care

Simon Robinson

Spirituality, Ethics and Care Simon Robinson
The book includes chapters on ethics, religion and spirituality; the community of care; fit for purpose; values, virtues and the patient, and challenging faith. This is a welcome addition for the practitioners and those training in human services'. - Nursing Standard Spirituality, Ethics and Care provides guidance on how to integrate spirituality and ethics in professional and voluntary care. The author argues that the strong connections between moral meaning and spirituality are often not reflected in the health and social care literature. Using case studies and examples from everyday situations, such as end of life decisions, conjoined twins, heart conditions, social work, mental health and emergency care practice, the author provides a practical framework for incorporating spirituality into ethical decision-making and care. This book will encourage and inspire social workers, healthcare professionals and church pastoral practitioners.
