This book on search and seizure law contains a logical progression through the topic. It is intended to present an understandable discussion of the basics of search and seizure law. The presentation of the topic begins with a discussion of what a search is and ends with the exclusionary rule. The burden of suspicion chapter is followed by a discussion of search warrant law. Arrests and stops are explained as well as the law as it applies to automobiles. Each facet of warrantless searches is then discussed individually. The depth of "consent" is covered. "Plain view" situations are compared with "open view" analysis, and emergency theories.
