The Beast of Kandahar Trent Diesel
After years of war along the bleak, rocky terrains of Afghanistan and Pakistan, the American military, led by the CIA, refine search-and-destroy techniques to find terrorists hiding around the world. Capture-kill missions are performed at a rate of about three thousand per year, several each day. This technique has been successful and has become the cornerstone of this new war. To keep US casualties low, America uses its best tool: drone warfare. Over time the Muslim war fighters are pushed to the brink. When someone is placed on the target list, the all-seeing eyes are relentless and show no mercy. One of these unmanned weapons became known as the beast of Kandahar.
