Written by one of the UK's leading equine veterinary practitioners, this textbook is dedicated wholly to the veterinary management of the racehorse. **The Racehorse: A Veterinary Manual** brings together all the major orthopaedic and non-orthopaedic conditions likely to be encountered in racehorse practice and concisely details state-of-the-art 'best practice' for diagnosis and management. The book spans the full range of fields relevant to the clinician, including topics as diverse as rehabilitation, respiratory medicine, exercise physiology, pre-purchase and 'herd health.'

Well-illustrated and comprehensive, it succeeds in being both practical and firmly evidence based, making it an invaluable resource for clinicians worldwide as well as a useful reference work for many non-veterinarians in the racing industry.
