Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics)

The main focus of this volume is on the problem of describing the automorphism groups of affine and projective varieties, a classical subject in algebraic geometry where, in both cases, the automorphism group is often infinite dimensional. The collection covers a wide range of topics and is intended for researchers in the fields of classical algebraic geometry and birational geometry (Cremona groups) as well as affine geometry with an emphasis on algebraic group actions and automorphism groups. It presents original research and surveys and provides a valuable overview of the current state of the art in these topics.

Bringing together specialists from projective, birational algebraic geometry and affine and complex algebraic geometry, including Mori theory and algebraic group actions, this book is the result of ensuing talks and discussions from the conference “Groups of Automorphisms in Birational and Affine Geometry” held in October 2012, at the CIRM, Levico Terme, Italy. The talks at the conference highlighted the close connections between the above-mentioned areas and promoted the exchange of knowledge and methods from adjacent fields.

From reader reviews:

John Casale:

People live in this new morning of lifestyle always attempt to and must have the extra time or they will get wide range of stress from both way of life and work. So , once we ask do people have free time, we will say absolutely of course. People is human not really a huge robot. Then we ask again, what kind of activity are you experiencing when the spare time coming to you actually of course your answer will probably unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative inside spending your spare time, the book you have read is Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics).

Henry Howell:

Do you have something that that suits you such as book? The reserve lovers usually prefer to choose book like comic, small story and the biggest an example may be novel. Now, why not trying Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics) that give your entertainment preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the opportunity for people to know world considerably better then how they react toward the world. It can't be explained constantly that reading habit only for the geeky man or woman but for all of you who wants to always be success person. So , for all of you who want to start studying as your good habit, you may pick Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics) become your own personal starter.

Kathryn Bowen:

Your reading 6th sense will not betray you actually, why because this Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics) guide written by well-known writer whose to say well how to make book that could be understand by anyone who read the book. Written throughout good manner for you, dripping every ideas and producing skill only for eliminate your personal hunger then you still hesitation Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics) as good book but not only by the cover but also from the content. This is one guide that can break don't assess book by its protect, so do you still needing yet another sixth sense to pick that!? Oh come on your studying sixth sense already said so why you have to listening to another sixth sense.

Holly Hughes:

This Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics) is great e-book for you because the content and that is full of information for you who all always deal with world and have to make decision every minute. This particular

book reveal it details accurately using great organize word or we can claim no rambling sentences inside. So if you are read that hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but tough core information with wonderful delivering sentences. Having Automorphisms in Birational and Affine Geometry: Levico Terme, Italy, October 2012 (Springer Proceedings in Mathematics & Statistics) in your hand like having the world in your arm, data in it is not ridiculous one. We can say that no book that offer you world in ten or fifteen moment right but this e-book already do that. So , this is certainly good reading book. Hey Mr. and Mrs. hectic do you still doubt which?
