Philosophers on Shakespeare

Philosophers on Shakespeare
A number of the most influential thinkers of the past two hundred and fifty years, Herder, Goethe, Hegel, Benjamin, Marx, Schmitt, Lukács, Derrida, Cavell, Agnes Heller, and others, have grappled with Shakespeare. This is the first volume to bring together their engagements with his drama, which are part of an underexplored philosophical tradition. *Philosophers on Shakespeare* comes at a time when the critical paradigm of Shakespeare studies in the academy is shifting from a historicist and cultural materialist model toward a renewed interest in theoretical readings of the plays. Shakespeare's work is currently being taught and performed more than ever, and there is a proliferation of new critical editions of the plays themselves to which this volume will serve as a timely and much-needed companion. It is useful for the light it sheds on individual plays as well as for its survey of literary criticism, aesthetic theory, theories of tragedy and dramatic criticism since the mid-eighteenth century.
