Introduction to Horticultural Science

Richard N. Arteca

Introduction to Horticultural Science Richard N. Arteca
Introduction to Horticulture Science covers this subject matter in sufficient detail to be used as an introductory college textbook for a horticultural science class. It provides an excellent survey of key aspects of this area and presents cutting edge research at a level understandable to undergraduate students. This text introduces students to fundamental concepts including an introduction to the green plant; the origin and domestication of plants; the horticulture industry; and the fundamental steps leading to success in a horticulture career. The relationship between horticulture and the environment is discussed in addition to the classification of plants and plant anatomy. Also included is information on plant propagation; media, nutrients and fertilizers; plants and the environment; plant growth regulators; post harvest physiology and pest management; and it concludes with a comprehensive discussion of greenhouse structures; nursery site selection; development and facilities; producing nursery crops; and floral design.
