Waterproof Tear-Resistant Topographic Map Guide

The ***Hanover to Mount Carlo*** *Topographic Map Guide* makes a perfect traveling companion when traversing the New Hampshire section of the Appalachian Trail (A.T.). The A.T. through New Hampshire is considered one of the more challenging sections of the trail, with long stretches above tree line and the possibility for rapid temperature change and snow any month of the year. But despite its difficulty, the trail offers some of the most spectacular scenery in New England as it leaves the Connecticut River valley to traverse the beautifully rugged White Mountains, a highlight of the A.T.

Each A.T. *Topographic Map Guide* includes detailed topographic maps at a detail of 1 inch = 1 mile. Each page is centered on the A.T. and overlaps with the adjacent pages so there is little chance of getting lost. Along the bottom of each page is a trail profile that shows the distance between shelters, camping areas, and trail access points. The map and trail profile provide a step by step visual guide to hiking the trail, mile by rugged mile. The *Topographic Map Guide* is built for all levels of hiking enthusiasts, from the day tripper to the multi month 'thru-hiker'. The front pages of the printed *Topographic Map Guide* include resupply information, town inset maps, camping options, and much more.

Every *Topographic Map Guide* is printed on 'Backcountry Tough' waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation.

All proceeds from the purchase of a National Geographic map help support the Society's vital exploration, conservation, scientific research, and education programs.
