Jonie, the fattest girl in the World. (Reader Series for kids 5 to 8 years.) Sophe Antoine
I am an elementary teacher with years of experience. After encountering a lot of difficulty in finding books to provide effective instructions to my young students, I decided to write them myself. My books target parents who wish to work with their own children and are ideal for homeschooling.
I have noticed that students despise poetry, especially the younger ones. They find it complicated and overbearing. In this book, I deliberately sought to create a character that is both enjoyable and endearing. It is set in school, so kids can relate to it. There is also a moral in it as it delves into some important contemporary issues, such as bullying, low self esteem in children, as well as respecting others.
This lovely story, in verse form, is suitable for children between ages 5 - 8. It has beautiful illustrations. Jonie is a fat little girl and because of this, she is the victim of a lot of taunts at school. Then one day, her size actually makes her a heroine in the eyes of all her schoolmates.
