What On Earth Is Going On?: The World Is In Turmoil! Why? Is There A Safe Harbor? Walt Scott We live in troubled times, facing serious social, moral, ethical, political, and economic problems, plus many major natural disasters. Terrorism, based on hatred and extreme religious views, is a constant threat.. After years of prosperity many are having difficulty adjusting to this new reality. What On Earth Is Going On? We have polarized into two groups: people of faith, who cherish traditional views and values, and those who are guided by the tenants of atheistic secular humanism. This latter group is openly challenging and working to destroy traditional religious beliefs, practices and moral standards. Religion has always been a source of personal reassurance for people of faith. It is the most significant civilizing influences in any society. But many seem to have lost confidence in age-old teachings, perhaps with some justification. Perhaps we, as individuals, families and as a society, need to reexamine our approach to life and our priorities. Is it time we all returned to God? This book presents a history of the Gospel of Jesus Christ and His Church. …. It's not so much about beliefs and practices as it is about historical cycles and the significance of divinely revealed truths and authority to us today. This is information everyone needs and deserves.. Age-old questions remain a mystery to most of us. Who am I? Where did I come from? Why am I here? What follows death? Mortality is a short but very significant period in ones eternal life. Living without clear answers to these questions is like trying to win a game for which you know neither the object nor the rules. In this book you will find the divinely revealed answers to these age-old questions. They have been largely lost over time, Life does have a purpose, which only the Creator can explain, and he has done just that. Many Christians, including the author, recognize long predicted signs of our times. This book also deals with these warnings and adds information most are not likely to be familiar with. You are invited to compare your beliefs and thoughts with those presented by the author. Perhaps you can add some things of real value to the truths you cherish.
